DETAILED ACTION

1. The examiner respectfully requests clarification for the embodiment of Figs. 7-11.

It does not appear that the first brush head 122 and second brush head 124 actually rotate as shown by the shaft structure of Figs. 9-11. It would appear that these brush heads oscillate but do not actually rotate in 360-degree fashion. Please refer to the specification at p.11, line 17 to p.12, line 11. Clarification and/or amendment are respectfully requested in the specification.

2. Claim 1, line 4, and claim 12, line 4, "an" should read --a--. The scope of claims 15 and 20 are unclear because of inconsistency between the preamble and body of the claim. Specifically, it is unclear whether "said toothbrush motor" (last lines) is being positively claimed since the preambles merely set forth "A brush tip for a motorized toothbrush...".

3. Claims 1-24 appear to contain allowable subject matter.

Conclusion

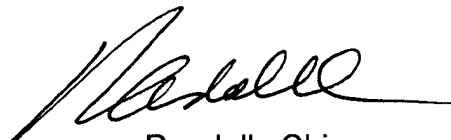

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The patents to Kowalewski, Baldacci, and McDougall are pertinent to brushes with rotating heads.
